

## PROTURF PREMIUM

ProTurf Premium Topdressing Soil is composed of a premium compost blend and topdressing sand. It is a superior soil medium used for over-seeding and top-dressing applications for sports fields and lawns. Using ProTurf as part of a maintenance program will improve soil performance over time and benefit the turf and plant life it supports. Pro Turf Premium is stored in our coverall in dry conditioned and is available in stock for bulk pick-up or delivery.

Component proportions by volume:

Leaf Compost	60%
Aged Pine Substrate	35%
Granite Sand	15%

Typical Analysis:

pH	6.0 - 7.5
CEC (MEQ/100g)	> 25
Phosphorous (ppm)	30 - 100
Potassium (ppm)	80 – 500
Calcium (ppm)	< 5000
Magnesium (ppm)	100 – 500
Total Salts (mmhos/cm)	< 1.5
Percent Organic Matter	> 30
